**Letter of Guaranty: Antimicrobial Products for  
Food-Contact Surfaces**

The *Sanitation Performance Standards Compliance Guide* requires an establishment to develop and employ sanitation or processing procedures that meet USDA regulatory sanitation performance objectives.

Sanitizers such as those listed below should only be applied to cleaned surfaces. Sanitized food contact equipment and utensils must be adequately drained to prevent food adulteration.

The product(s) listed below are registered as antimicrobial product(s) for food-contact surfaces under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) by the Office of Pesticide Programs, United States Environmental Protection Agency (EPA). It is a violation of Federal law to use a registered product in a manner inconsistent with its labeling. The EPA registration number appearing on the label provides access to documentation regarding these products.

The following products are safe and effective for **sanitizing and/or disinfecting** and do not require a potable water rinse as directed on the label:

**Austin A-1 Bleach** EPA Registration Number 1672-20004  
NSF Registration 046926 Categories B1, B2, D2, Q4  
Guaranteed 5.25% Sodium Hypochlorite
